Term 2 - Week 9

Friday, 24 June 2011

## PRINCIPALS REPORT

Congratulations to our Stage 3 who participated in the "Mid Coast Science and Engineering Challenge". Students use their logic and higher order thinking skills to solve construction type problems. More importantly, to be successful students need to be able to work cooperatively as a team. Numerous positive comments have been passed onto me about our students' excellent behaviour and attitude. A big thank you to The University of Newcastle, The Rotary Clubs of Taree and to the High School students who assisted on the day. The school received an impressive glass trophy for being the Champion School. Well done.
